

Chillout program guide

Setup:

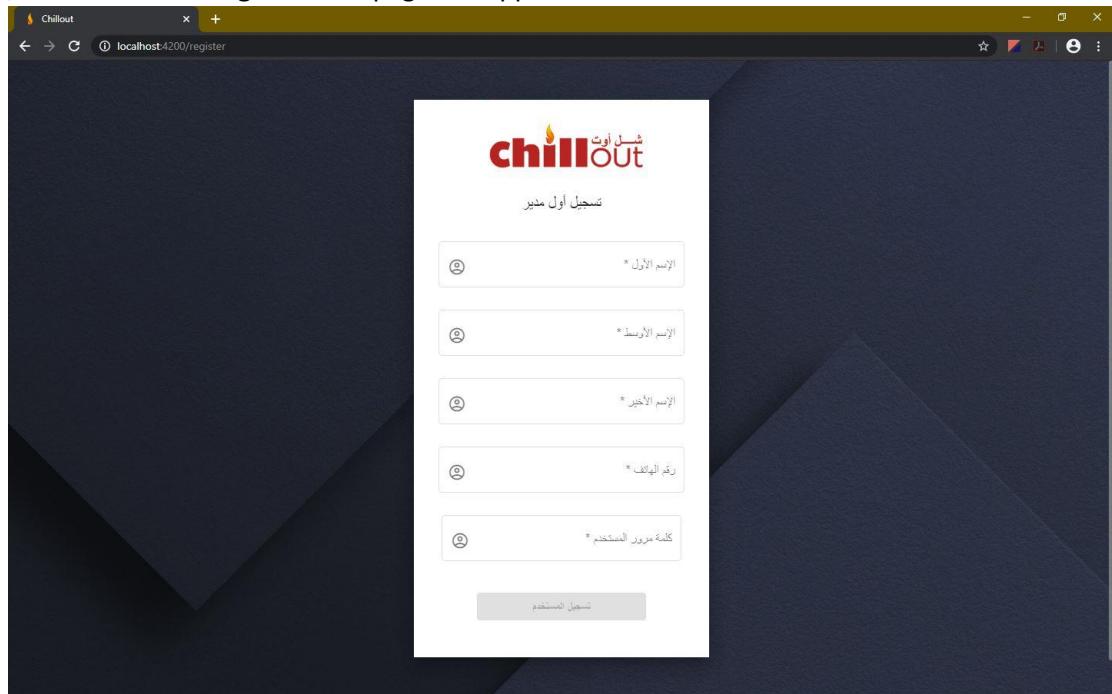

١. Open the "Chillout Program Package" folder
٢. Install all the existing programs in the "Setup" folder
٣. Create the path "D:\Shalaby\Chillout\Chillout" and move the following folders and files to that path:
 - a. "frontend"
 - b. "backend"
 - c. "Chillout.bat"
 - d. "Chillout.ico"
٤. Create the path "D:\Shalaby\Chillout" and move the "wildfly-١٨,٠,٠.Final" folder to that path
٥. If MongoDB was installed successfully, move the content of "Full database" folder to path "C:\Program Files\MongoDB\Server\٤,٢\data"
٦. Move the "Chillout" (Shortcut) file to Desktop

Running:

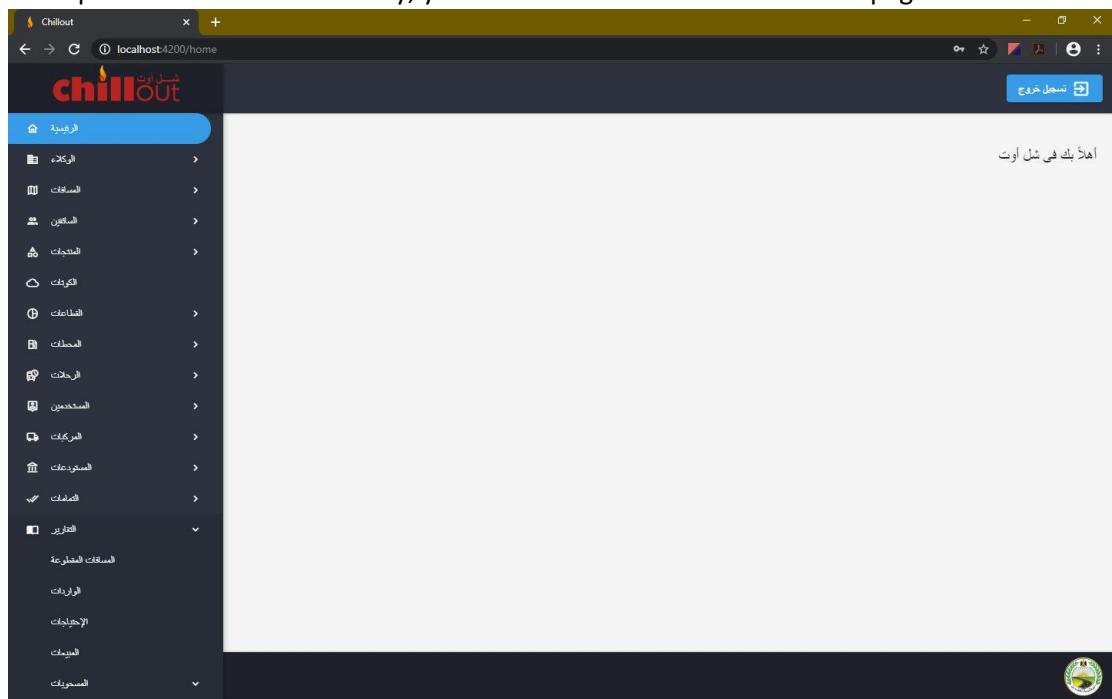

١. Start the program by clicking on the "Chillout" (Shortcut) in the Desktop
٢. ٢ servers will start running, minimize them and wait for the program to open completely
Warning: the ٢ servers must be running in order for the program to work correctly
٣. If there is at least ١ administrator in the database. The "Login" page will appear where you can insert your phone number and password

, otherwise the "**Registration**" page will appear to create the first admin

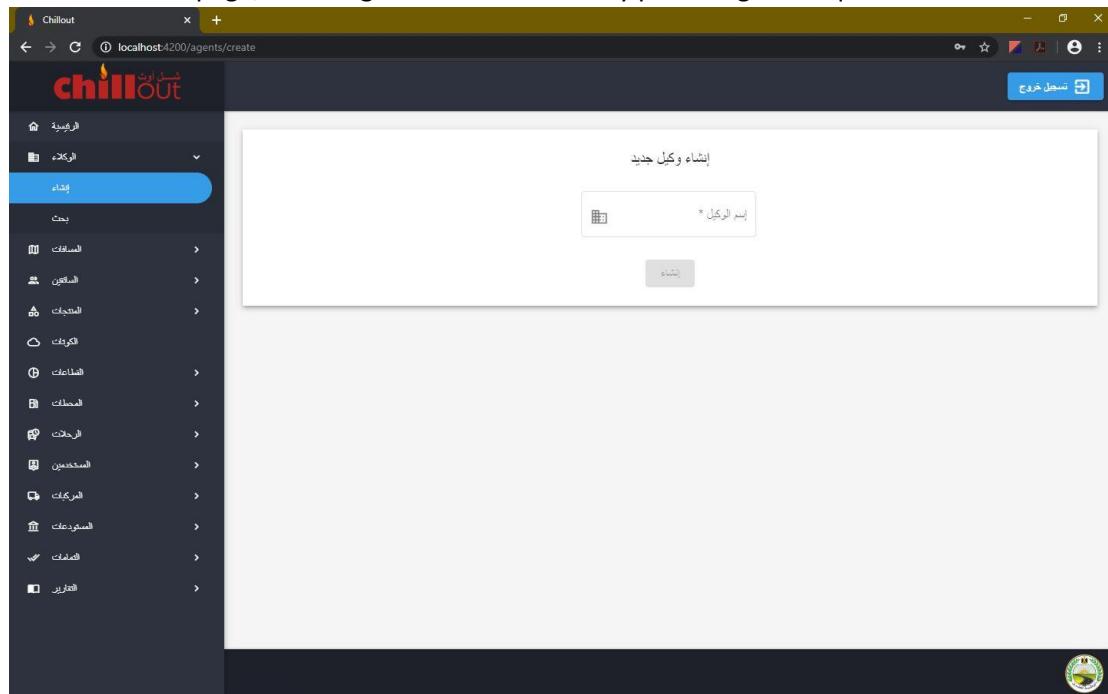

٤. If the process is done successfully, you will be redirected to the "**Home**" page

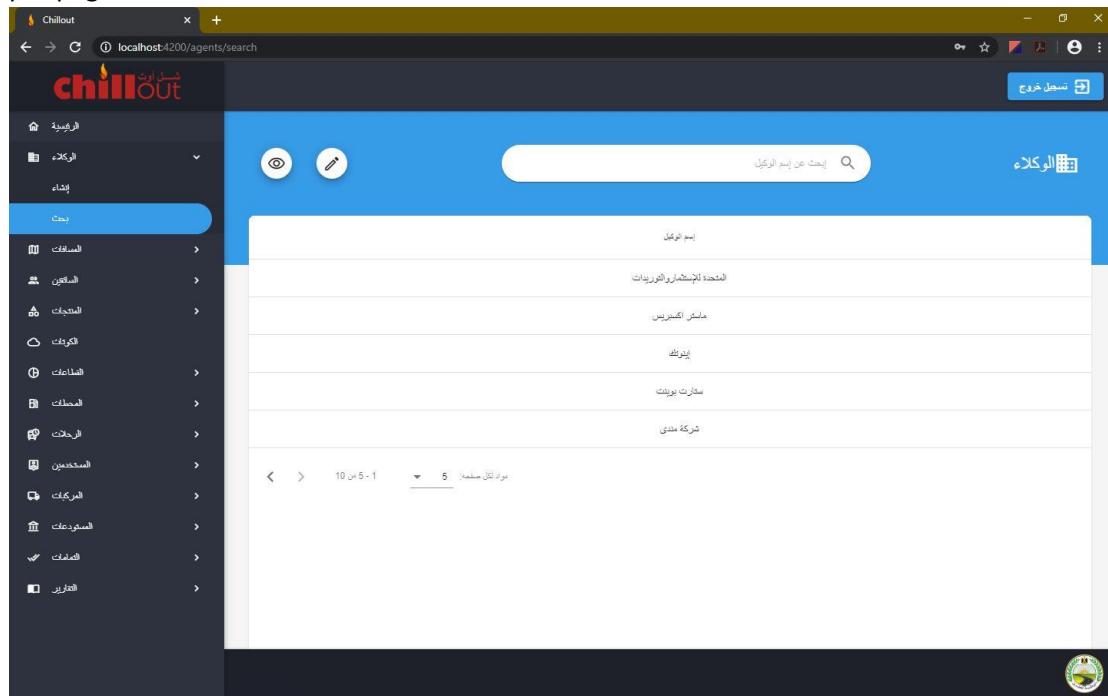

٥. From here, you can navigate to other pages through the navigation bar on the left or log out from the "**Log out**" button

Agents:

1. In the "Create" page, a new agent can be created by providing the required data

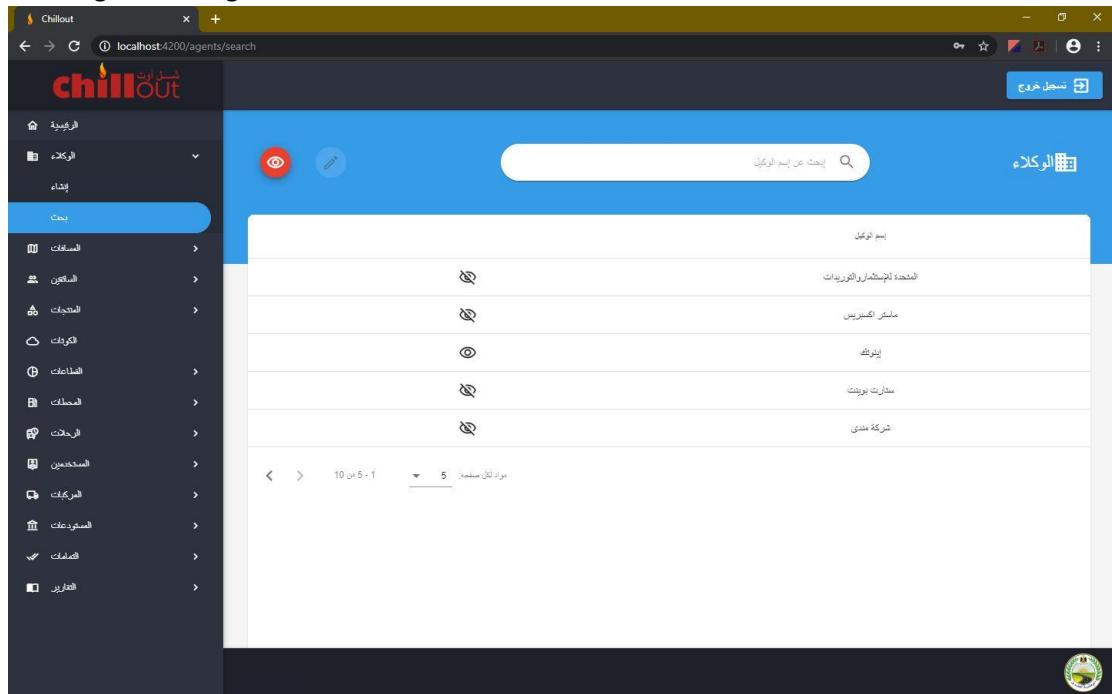

2. In the "Search" page, all the agents are listed. You can search for any agent in the search bar, browse through the table pages or change the number of items shown per page

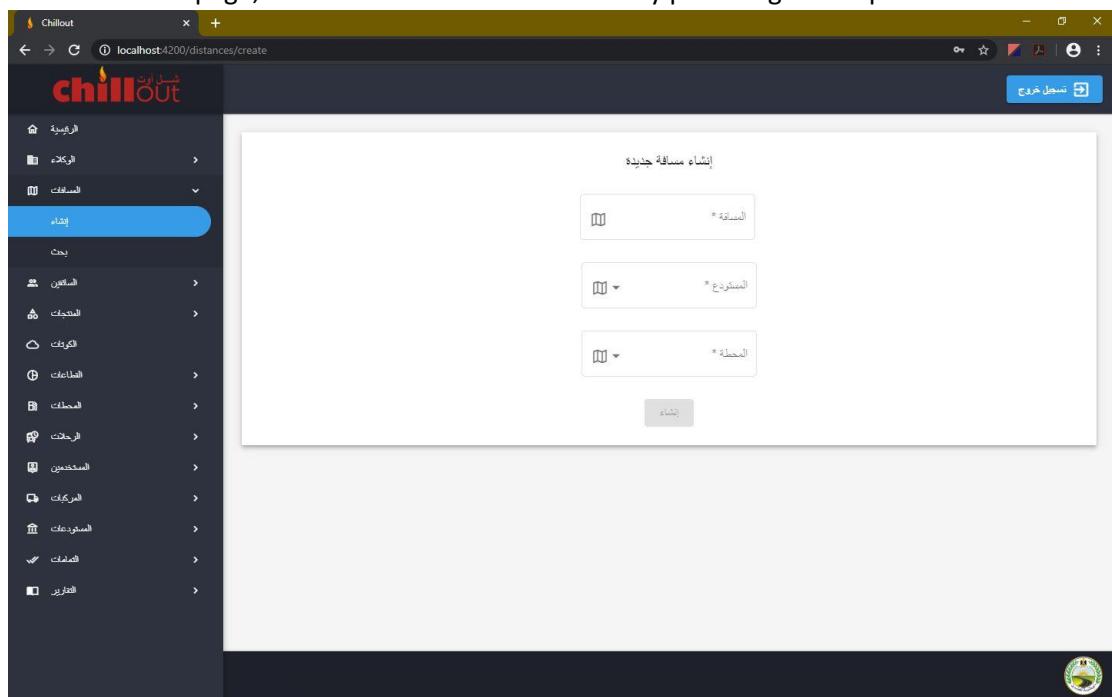

3. You can also hide or show any agent in the program by entering the Show/Hide mode from the eye like icon. Clicking on the icon next to the agent toggles between

showing and hiding that item

Distances:

1. In the "Create" page, a new distance can be created by providing the required data

٢. In the "**Search**" page, all the distances are listed. You can search for any distance in the search bar, browse through the table pages or change the number of items

المسافة	الشركة، المسافة	المسافة
مسافر	التعاون - الويكاب	40
مسافر 2	التعاون - الويكاب	40
الحول	التعاون - الويكاب	30
الساتر	التعاون - الويكاب	11
السلام 2	التعاون - الويكاب	11
شبرا بعها 1	التعاون - الويكاب	40
شبرا بعها 2	التعاون - الويكاب	40
شبرا بعها 3	التعاون - الويكاب	80
شبرا بعها 4	التعاون - الويكاب	60
مثل اوت 1	التعاون - الويكاب	60

Drivers:

١. In the "**Create**" page, a new driver can be created by providing the required data

إنشاء سائق جديد

الإسم الأول للسائق *

الإسم الأوسط للسائق *

الإسم الأخير للسائق *

رقم هاوند السائق *

٢. In the "**Search**" page, all the drivers are listed. You can search for any driver in the search bar, browse through the table pages or change the number of items shown

per page

The screenshot shows a web browser window for the Chillout application. The URL is `localhost:4200/drivers/search`. The page has a dark blue header with the Chillout logo and a search bar containing the placeholder "ابحث عن اسم السائق أو رقم الهاتف". On the right side of the header, there are icons for user profile and sign-out. Below the header is a navigation sidebar with Arabic labels: الرئيسية, الوركدة, المسئليات, السائقين, إقامة, بحث, المتاح, الفوائد, الصالات, المصانع, الرحلات, المستخدمين, المركبات, المسودعات, الصالات, and التغذير. The main content area displays a table of driver search results. The columns are labeled: رقم الهاتف (Phone Number), الاسم الآخر (Other Name), الاسم الأصلي (Original Name), and الإسم الأول (First Name). The data in the table is as follows:

رقم الهاتف	الاسم الآخر	الاسم الأصلي	الإسم الأول
01225176723	محمد	إسماعيل	أحمد
01200438851	محمود	الشحات	أحمد
01094646090	أحمد	بدرى	أحمد
01004727906	جلبي	جبريل	أحمد
01001521209	محمد	جواد	أحمد

At the bottom of the table, there is a pagination control showing "127 من 5 - 1" and a page number "5".

Products:

- In the "Create" page, a new product can be created by providing the required data

The screenshot shows a web browser window for the Chillout application. The URL is `localhost:4200/products/create`. The page has a dark blue header with the Chillout logo and a sign-out icon. Below the header is a navigation sidebar with Arabic labels: الرئيسية, الوركدة, المسئليات, السائقين, إقامة, بحث, الفوائد, الصالات, المصانع, الرحلات, المستخدمين, المركبات, المسودعات, الصالات, and التغذير. The main content area displays a form titled "إنشاء منتج جديد" (Create New Product). The form has a single input field labeled "اسم المنتج" (Product Name) with a placeholder "اسم المنتج". A "Next" button is located at the bottom right of the form.

٢. In the "Search" page, all the products are listed. You can search for any product in the search bar, browse through the table pages or change the number of items

اسم المنتج	بترن	بترن 92	بترن 95	سولار	إجمالي المبلغ الإضافي
	80				
	92				
	95				

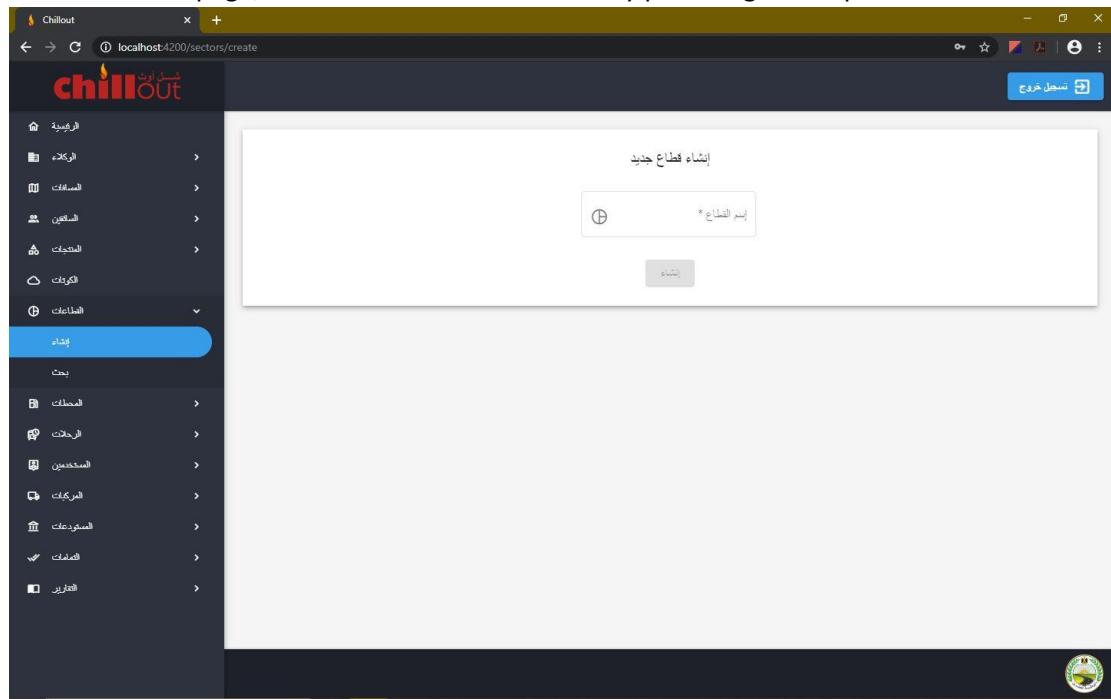

Quotas:

١. Monthly quota is listed according to the date chosen from the date picker. You can view, edit, export any quota

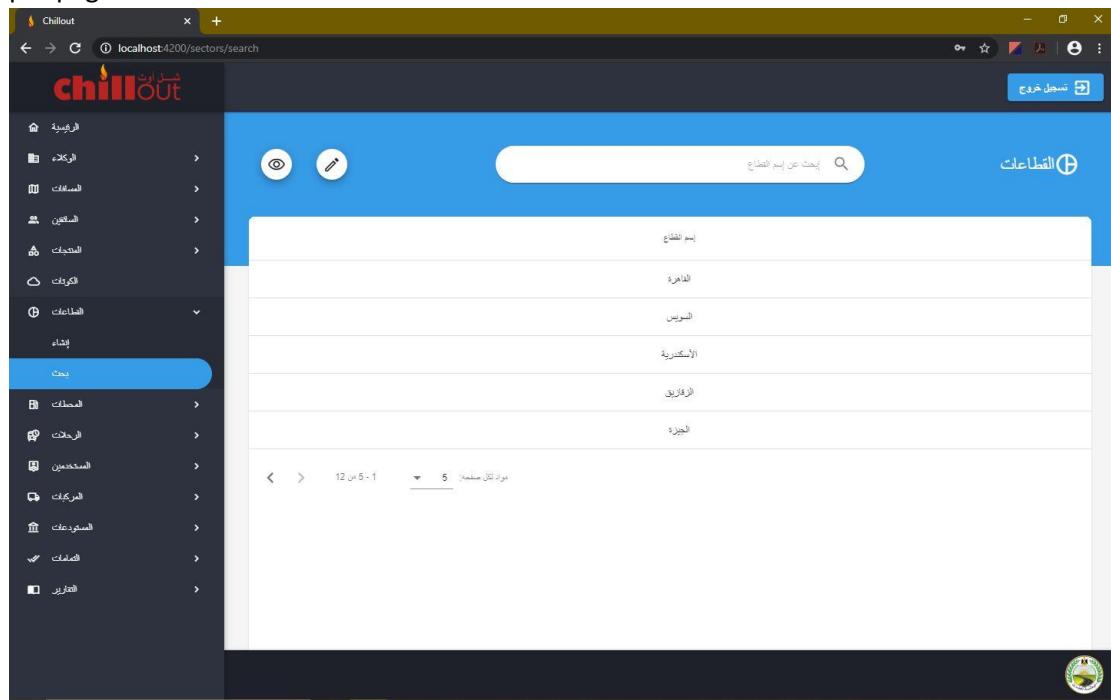

شهر	بترن 95	بترن 92	بترن 80	إجمالي المبلغ الإضافي
المعاون - اليايكتب	500000	1000000	1000000	
الكافل - مسطرد	0	0	0	
الكافل - المذكى	200000	100000	100000	
الصافون - ادرازيت	0	0	0	
موبييل - مسطرد	5000000	2000000	7000000	0
موبييل - شعوبين	500000	200000	500000	0
موبييل - المذكى	1500000	200000	700000	300000
طلاقة - السويس	1500000	300000	500000	2000000
عوادل - مسطرد	4000000	2000000	6000000	0
الإجمالي	12700000	5200000	15800000	3400000

Sectors:

1. In the "Create" page, a new sector can be created by providing the required data

2. In the "Search" page, all the sectors are listed. You can search for any sector in the search bar, browse through the table pages or change the number of items shown per page

Stations:

1. In the "Create" page, a new station can be created by providing the required data. If a new station is created, you have to go to that station page and add its tanks and products, and you have to go to the distances creation page and create a distance between it and every warehouse available. If the distance is not yet known initialize

it by •

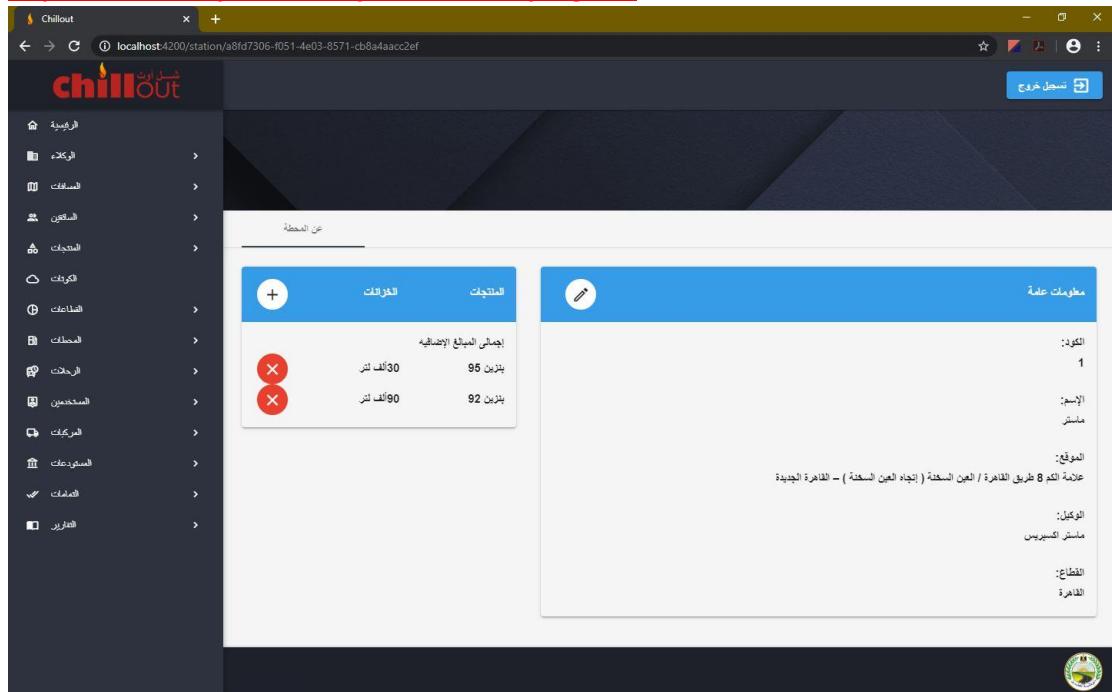

The screenshot shows a Windows desktop application window titled 'Chillout'. The left sidebar menu includes: الرئيسية, الوكالات, المبادرات, الساقنون, المتاجر, الكوينت, الصناعات, المحملات, إنشاء, بحث, الرحلات, المستخدمين, المركبات, المسودعات, الصالات, and المغير. The 'إنشاء' (Create) item is highlighted with a blue bar. The main content area is titled 'إنشاء محطة جديدة' (Create New Station). It contains five input fields with validation stars: 'نوع المحطة*' (Station Type*), 'اسم المحطة*' (Station Name*), 'موقع المحطة*' (Station Location*), 'الركيج*', and 'القطاع*'. A 'إنشاء' (Create) button is at the bottom right.

٢. In the "Search" page, all the stations are listed. You can search for any station in the search bar, browse through the table pages or change the number of items shown per page. To access station details, click on it

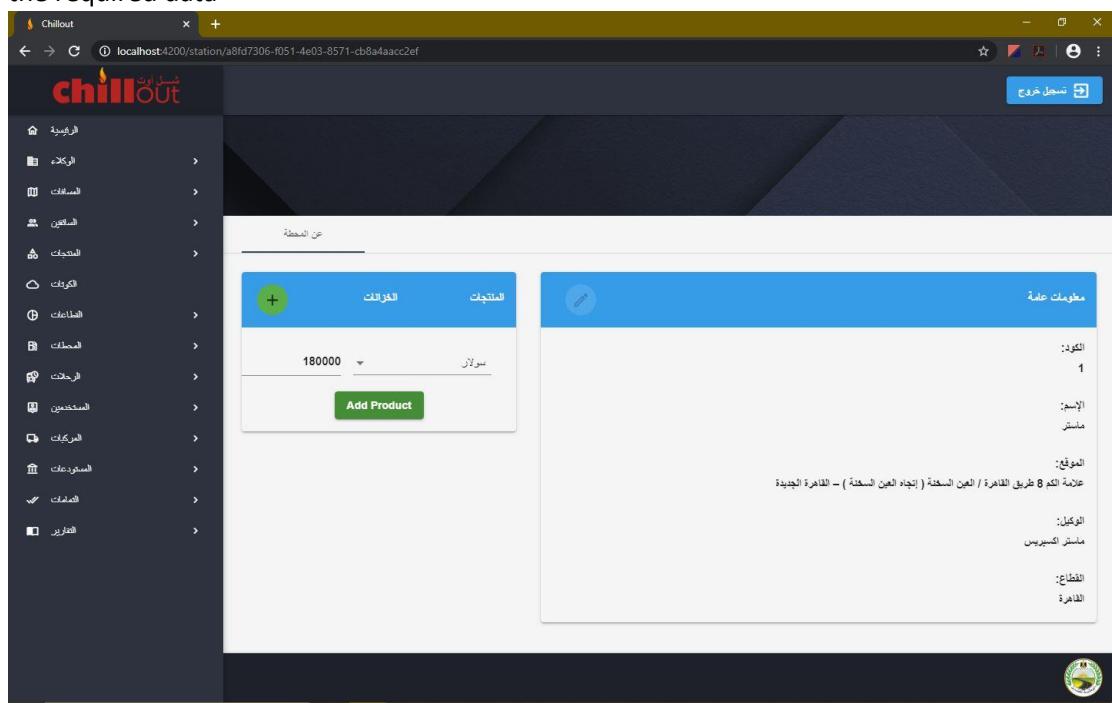

The screenshot shows the 'stations/search' page. The left sidebar is identical to the previous one. The main area has a search bar with placeholder 'ابحث عن نكود المحطة او اسم المحطة' (Search for station code or name) and a magnifying glass icon. A table lists stations with columns for 'اسم المحطة' (Station Name), 'نوع المحطة' (Station Type), and 'ركيج'. The table shows five entries: 1. ماسنر, 2. ماسنر 2, 3. التخل, 4. التجم, and 5. التجم 2. At the bottom, there are navigation buttons for page numbers (1, 2, 38 من 5) and a 'مواءد كل سلعة' (All products schedule) link.

٣. In the "About" page, all the details are shown, and you can also delete any product this station has. **Warning: Deleting a product from a station should only be used if**

its product is not yet used anywhere in the program

٤. You can add a attach a product to the station by clicking on the add button and fill the required data

- ٥. You can edit the existing data by clicking on the edit button, changing the data and clicking again on the edit button to save the changes

التالي

٢. Then the first transfer required data is filled. Note this is not an optional step

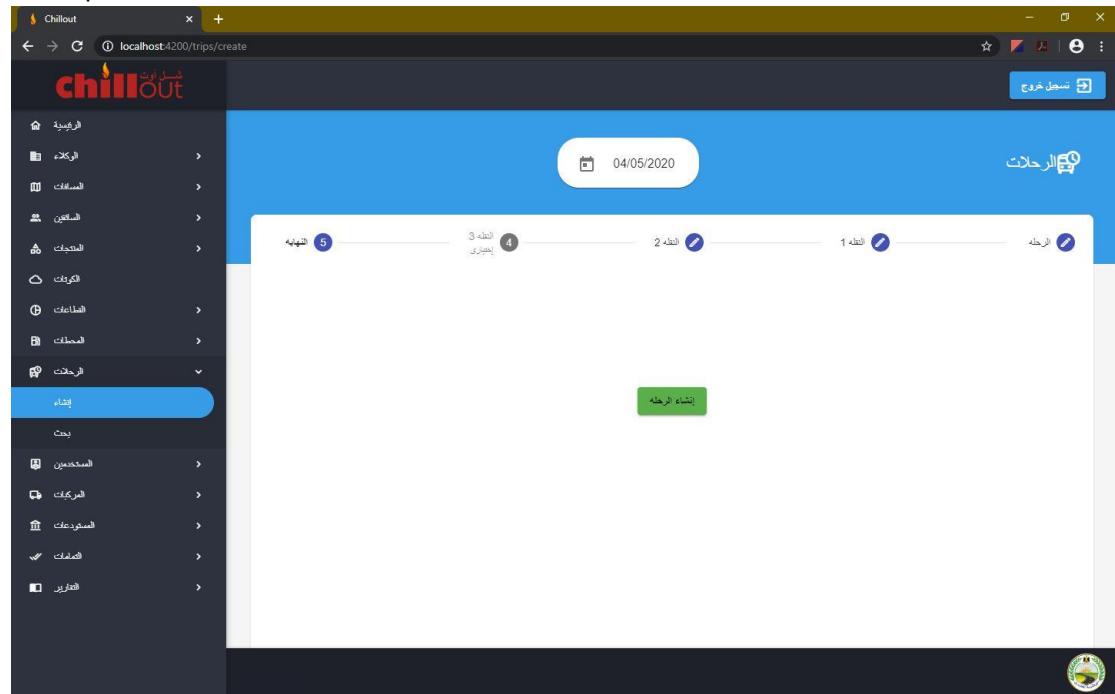

٣. The second and third transfer are optional. In case you entered some data in this step by mistake and can't proceed to the next step, you can click on the reset button to clear the false data and change the step to optional again

٤. Before you click on the create trip button, you can jump to any step by clicking the step name, check the trip date and change any data. Clicking on the create trip button will create the trip and reset all steps directing you to the first step leaving

the trip date as it is.

٥. In the "Search" page, all the trips created in the selected date are listed. You can search for the trips of a certain vehicle in that date

A screenshot of the 'Chillout' application showing the 'trips/search' page for May 4, 2020. The URL is 'localhost:4200/trips/search'. The interface is similar to the creation page, with the 'Search' button highlighted in the sidebar. The main area displays a table of trip records:

الترتيب	الرحلة	ستوrage المخرج	التفاصيل	ستوrage المدخل	نقطة النهاية
1	162	موبيل - مسطرد	الخطف: بنزين 92 (كر)	موبيل - مسطرد	100
1	150	موبيل - مسطرد	فاسه 2: بنزين 95 (كر)	موبيل - مسطرد	100
1	166	موبيل - السويس	أول الجلالة: سولار (51000 لتر)	طاقة - السويس	120
1	160	موبيل - مسطرد	كتور 3: بنزين 95 (51 لتر)	موبيل - مسطرد	100
1	170	موبيل - مسطرد	كتور 5: بنزين 92 (51 لتر)	موبيل - مسطرد	100
1	172	موبيل - مسطرد	زاه 1: بنزين 95 (أثر) زاه 1: بنزين 92 (34000 لتر)	موبيل - مسطرد	80
2	162	موبيل - مسطرد	زاه 2: بنزين 92 (51 لتر)	موبيل - مسطرد	80

- You can delete a trip by entering the delete mode from the bin like button. Clicking on the icon next to the trip deletes that item

التسلسل	متوجه	متوجه المزدوج	نوعية	الترتيب
1	النخلة: بنزين 92 (لتر)	مافير: 17000 (لتر) بنزين 95 (لتر)	موبيل - مسطورة	162

Selecting the start date automatically changes the end date to be equal to it to know the data of that specific date. While changing the end date doesn't change the start

date to know the data between the two dates

The screenshot shows a web-based application interface for 'Chillout'. On the left is a dark sidebar with various menu items in Arabic, such as 'الرئيسية', 'الوركاء', 'المعدات', 'السكن', 'المتحف', 'الكتاب', 'المطاعات', 'المحلات', 'الرحلات', 'المستخدمين', 'المربيات', 'المسودات', 'الصياد', 'الغاز', 'الإيجارات', 'البريدات', and 'المحسوبات'. The 'البريدات' item is highlighted with a blue bar at the bottom of the sidebar. The main content area has two date pickers: 'إلى:' set to '04/05/2020' and 'من:' set to '04/05/2020'. Below these are two tables. The first table shows sales data for May 4, 2020, with columns: 'Station' (Station), 'Sales 1' (نربيع 1), 'Sales 2' (نربيع 2), 'Sales 3' (نربيع 3), and 'Category' (المصنفة). The second table shows sales data for May 1, 2020, with the same columns. The data in both tables is identical.

النقطة	نربيع 1	نربيع 2	نربيع 3	المصنفة

٦. In the "**Companies Withdrawal**" report, all companies are displayed showing the exported amount from each product through the period between the start date and the end date. Selecting the start date automatically changes the end date to be equal to it to know the data of that specific date. While changing the end date

doesn't change the start date to know the data between the two dates

- Y. In the "**Remainings Withdrawal**" report, all warehouses are displayed showing the remaining amount from each product in the quota of the same month through the period between the start date and the end date and its sum. Selecting the start date automatically changes the end date to be equal to it to know the data of that specific date. While changing the end date doesn't change the start date to know the data between the two dates

Important Notes:

1. If you want to make a backup from the database (like the end of month):
 - a. Open "**Task manager**" by holding CTRL + SHIFT + ESC
 - b. Go to the "**Services**" page, search for "**MongoDB**"
 - c. Right-click on it and stop it
 - d. Go to the path "**C:\Program Files\MongoDB\Server\4.2\data**"
 - e. Copy the content of that folder and paste it in another folder which you are going to use as a backup
 - f. Open task manager by holding CTRL + SHIFT + ESC
 - g. Go to the Services page, search for "**MongoDB**"
 - h. Right-click on it and start it, then you can continue to use the program

Note: If you want to restore a backup to the database, do the same steps except that step "e" has to be inverted
2. Don't run the program again while the servers are already running and make sure that the **Y** servers are running while you use the program
